The **Department of Physics at Seton Hall University** invites applications to fill a Tenure-Track Assistant Professor position beginning the Fall 2010 semester. We seek a candidate who demonstrates excellence in teaching lecture and laboratory courses at all levels especially to students of varied backgrounds. The candidate is expected to improve teaching laboratories and upgrade their facilities. A Ph.D. in Physics or related field is required. Preferences will be given to candidates with experimental condensed matter background or a related field but other areas of expertise will also be considered. The candidate is expected to build an on campus research program, successfully seek sponsored research grants, and involve undergraduate students in scholarly activity. Applicants should send curriculum vitae, statements of teaching and research interests and three letters of recommendation to **Professor Mehmet Alper Sahiner, Chair, Department of Physics, Seton Hall University, 400 S. Orange Ave, South Orange NJ 07079. email: mehmet.sahiner@shu.edu**. Review of the applications will begin March 1, 2010. *Seton Hall University is an equal opportunity / affirmative action employer.*
